THE EXPERT OF MOULD THERMOREGULATION

EXPERTISE

Promec specializes in the supply of components for connections of air, water, emulsified water, diathermic oil and high pressure oil for oleodynamic.

QUALITY AND PRICE

Our commitment is not limited to only promptly providing what is requested by the customer, but we aim also to provide advice and useful suggestions to achieve the most effective, efficient and economic solution as well as reliable and practical management.

MAKE THE RIGHT CHOICE

Our staff is in support of the internal and external sales network to deal directly with the customer in order to meet the most specific need, also possibly with an inspection at the customer.
